Though small, Nepal can fulfill travelers’ each desire—from ascending the Himalayas to watching birds and wildlife in the plains, from adventure sports to pilgrimage tours. Lonely Planet described Nepal’s multi-activity functionality, “Mountains are only half the Nepal story. The towns of Kathmandu Valley are jam-packed with pagoda-roofed temples and the national parks of plains are teemed with exotic wildlife. On a single trip to Nepal you can climb a mountain, meditate in a monastery, ride on a bus roof, sip Chang (rice beer) with a Sherpa, get chased by rhino and have your bananas nicked by monkey—how many countries can compete with that?”

“Trekking in Nepal is one of the Travel Benchmarks like seeing the Taj Mahal or diving the Great Barriers Reef or the first time you eat fried locusts. By the end of your trek you may vow not to climb anything higher than the stairs around your home town, but the experience of the Himalaya will stay with you for life time”

Adam Bennett, Manager – Asia – Pacific Communication: Lonely Planet

Pokhara is certainly one of the most extraordinary and beautiful places in the world.”

No place in the world offers such view of the Nepalese Matterhorn, Machhapuchhre (Fish-tail) and Annapurna from such close distance.

Chisakholo Veda Vidhyashram (Vedantic School)
Located at Sarangkot VDC, this school is situated 6 km distance from Pokhara at elevation of 1000 meters above sea level. According to Mythical books, this place was the meditation spot of ancient sages. Vedantic teachers and preacher as have been constantly catering spiritual knowledge for more than 8 decades. The school area lies in the middle of a hill surrounded by thick greenery. Lovely mountain view and beautiful scene of Pokhara Valley can be observed in cool and tranquil environment.

Conversion of Pokhara’s Land-Crack (Dhartiphata) into a Gift:
Land-cracks are associated with the Seti river bank of Pokhara more specifically along the gorge sections. The gorge sections of the Seti river are spread from K.I. Singh Bridge to Ratopahi/o Dhungesangu. Geologically, these land-crack areas are so deep that they can be converted into natural attractions for different types of tourists. Hence, these areas are regarded as Pokhara’s attractive sites, which have been remarkably shown by the Geological Engineering Environmental Map of Pokhara, 1998. Among such sites, the area between Hariyo Kharka (green pasture) and Ratopahi/o is also pointed out as the most interesting one. The land-cracks of varying shape and size are spread over this area.

These nature created land-cracks were not to be worried during the period when there was no human occupancy around. As the human occupancy developed closer to its proximity, dangerous incidents started happening to human beings as well as domesticated animals. Thereafter, human concern about the safety of themselves also started to develop and some strategies of rescuing the victims were also applied. One of such burning examples of fallen incident and successful rescue is the event of a child named Akriti. However, this so-called extreme topography can be converted into a better spot of scenic beauty at the foothill of the Shangri-la or on the bottom of the Pokhara valley. For this, common commitment of Pokhareli made for the conversion of this ever-known extreme topography into municipal level garden can work for yielding positive result. It can be expected that the garden itself will be a unique and one of the best tourism products of Pokhara. This garden will contribute to revive the name and fame of Pokhara due to this extreme geologically unique part of the land.
ANAPURNA CIRCUIT

It starts from Nayapul, one hour drive from Pokhara. On the way, trekkers get to see amazing natural facts like Kali Gandaki Gorge (6967m deep and 2km wide) at Dana which is deepest gorge in the world, large rhododendron forest at Ghorepani and Shaligram (fossil-stones which are worshipped by Hindus as the emblem of Lord Vishnu) on the bank of Kali Gandaki River. The landscape is dotted with colorful Tibetan prayer flags, chortens and Buddhist monasteries. Gateway to Lake Tilicho, the highest lake in the world; the lost ancient city of Lo- Manthang and the famous Thorung Pass are major side-trips of this trekking routes.

MUKTINATH, DAMODARKUNDA, KAGBENI AND UPPER MUSTANG
